## SUMMARY

---

UI/UX Designer & Frontend Developer with 3+ years of experience building functional and scalable websites, web apps, dashboards, and mobile apps. Has handled 20+ diverse projects with a user-centered approach, focusing on usability, visual consistency, and UI performance.

Experienced using Figma for UI/UX exploration and React, Tailwind, and GSAP to translate designs into clean, maintainable, and interactive code. Accustomed to identifying UX problems, devising rational solutions, and executing designs into real products with speed and precision. Adaptive to new technologies and comfortable working both independently and collaboratively.
